

## Israel/Global Zionism & Jewish Tribalism

**Commentary by Dr. David Duke** –The outspoken former Israeli Gilad Atzmon is perhaps the bravest and clearest thinking person of Jewish descent in the world. In a sense, music is truth in that music composes freely from the soul. A man evolved in the freedom and truth of music, may have a head start in philosophical honesty as well.

Mr. Atzmon has the perception and gumption to both see the ‘elephant’ in the room’ and the courage to expose it.

His most famous perception is that Jewish Power is so ubiquitous, so supreme that one can even acknowledge. Brilliant, though I would add except when a Jew boasts of it as a lever to blackmail or get a goy to submit to their power.

There are a number of Jews who claim to be anti-Zionist, but the vast majority of the anti-Zionist Jews shield and protect the Jewish tribalism that empowers Zionism. By

defending Jewish tribalist power, the anti-Zionists actually help Zionism. They deny and cover up Jewish tribalist supremacy over the politics and media a finance of the Globalist world.

They say they oppose some of the policies of Israel, but they ardently deny the Jewish networking and Jewish ethnic tribalism that makes Zionism possible.

***The Council of Presidents of Major Jewish Organizations*** illustrates this principle. It is an organization of 50 extremely powerful and well-financed Jewish organizations, most with global reach. Some are hard core racist, Jewish supremacist fanatics. A few are what you would think are more liberal minded. Yet, every group in the *Council* are united in one thing: the specific tribal interests of the Jewish people. Every thing they is based on a clear and supreme dedication to what is best for Jews, period. It is clear in their mission statements, which are there for all to see.

Every one of the 50 organizations calls itself Zionist and supports the Zionist State of Israel. All of them, proclaim their loyalty to the Jewish people and their interests and well-being. Most of these groups are led by older Jews who in their own lifetime are very aware of the fact that the same Zionist State they support has ethnically terrorized and driven hundreds of thousands of Palestinians from their own towns, homes, farms and businesses because they were of the wrong race. Notice, that I wrote, “wrong race” not “wrong religion,” because the ultimate test of the right to live and be truly free in Israel is not whether a Jew believes in Judaism or even God, but if they are of Jewish genealogy. (translated-of Jewish heritage, Jewish DNA – ultimately: the Jewish race.

Every one of them continues to support Israel even though it continues to ethnically cleanse, attack, bomb and torture the Palestinian people. And the great majority of them support their massive, deadly, oppressive, endless wars and occupations by America and other Western nations.

The AJC, or American Jewish Committee is a perfect example of that elemental ethnic supremacism. It proclaims itself as the most powerful “Jewish advocacy” organization on Earth. That’s “Jewish advocacy,” advocacy for human rights, or human advocacy but “Jewish advocacy.” That of course is seeking Jewish supremacy over the policies of media, banking, Internet social media, government for interests of Jews. over the 98 or 99 percent of the nations in which they live.

Jewish “Advocacy “ groups worth billions of dollars, promote Jewish interests and Israel — yet all of them hate & condemn any organization that dares to defend the civil and human rights of White people! The Conference of Presidents of Major Jewish organizations is comprised of fifty membership organizations that boast of their political influence, their media influence and their financial influence.

The fifty organizations are not simply 50 Jewish organizations that support Zionism, they are the fifty most powerful and influential Jewish organizations that exist in the

Jewish community! They are Zionist every one, and they are reflective of the Jewish community all over the world. Their supremacy and influence is absolutely stunting in its dominance. It enables their control over the American policy toward Israel and the Middle East, but it also enables and supports the Zionist hijacking of the United States, because controlling America is key to not only Jewish power all over the world, but also to Israel.

It makes the old saying of the elephant in the room a totally inadequate metaphor. Not some benign circus elephant, they are far more akin a monstrous powerful Mastodon or Woolly Mammoth who will charge and attack with unquenchable fury, anyone who they deem as a danger to their supremacy.

So the inescapable reality is that the organized Jewish community is synonymous with the promotion of Zionism.

They love to display the leaders of the Western World such Obama or Biden or Trump or Merkel prostrating begging for their approval. They even boast how the political and financial and media elite of the world rolling out the red carpet for these Zionist, tribalist fanatics.

The so-called anti-Zionist Jewish organizations are hardly a tiny blip on the rigged radar screen they show the world. Jews are presented as a few unconnected toothpicks floating in the flotsam next to the Queen Mary, when the truth is that they are the battleship that tells the Queen Mary, the ship of state of the Goyim where it can go.

And all of these tell us adamantly tell us that it is not Jewishness, not Jewish Tribalism that is the problem, but simply Zionism. They call it “anti-Semtic” to point out that organized Jewish power enables the Zionist crimes.

Actually, the fact that some ostensibly “anti-Zionist” organizations even exist, no matter how minor their Jewish support, serves a great purpose in the effort of the Zionists to deflect the Zionist problem from the Jewish establishment. It is not Jews they scream, it is just the Zionists!” But Zionist Jews dominate the Jewish community and through this tribalism they dominate all of us.

They say that Zionism has nothing to do with Jewishness. Gilad Atzmon reminds us, though, that Jewish symbols are all over the Zio weapons of mass destruction: the attack planes, tanks and bombs of the admittedly Jewish state! That of course is absurd. Judaism is fundamentally a racial religion with its book of laws clearly acknowledge. It is a racial religion if there ever was one. It is more racial than any political system that could ever be created by Hitlerian types, because claiming that your people are only your people are the chosen of God, is indeed the ultimate philosophy of racial supremacism. It is they say decreed by God, and not based on actions, not based on grace as Christians like to say in promoting good conduct. Jews are Chosen because of their blood, not their grace, As the Talmud says, they are the living literal seed of God. So, not matter what evil you or what evil that God supposedly commands you to do, it can't be evil.

It is similar to the ethnics of war, and in the eternal war waged by Jews against your enemies, anything goes.

In this supposed separation of religious Judaism Jews, Jewish leaders from to mention that practically every synagogue in the world overtly supports the Jewish State, and they support Jewish supremacism in the Diaspora. And this is true even from the secular causes of the Jewish people, such as their support of the worldwide cause of Communism, still with influence even to this day. The Jewish Encyclopedia reported that "practically every synagogue on Earth," supported materially rhetorically the Jewish Communist Invasion and Revolution in Russia and all over the world. This in Spite of the fact it proclaimed itself atheist. The support of organized for ashiest Communists, shows that Judaism has no other God above the Jews. After all, their actual belief is that the God himself and his creation was ultimately only about them. The purpose of God was not about himself. It was about his Chosen People the Jews.

A few years ago I saw a video a huge Jewish global convention in which the global ramous rabbi Friedman related the story of Moses after God saved them from the anti-Semitic Egyptians. According to Jewish texts, God despised their corruption, evil doing and worshipping of idols and the such, and told Moses that they totally evil, except for Moses himself. God told Moses he had decided to wipe the evil seed Jew off the Earth

except for Moses and his family. That would be a true Jewish Holocaust. Moses, responded to this by threatening God himself. Friedman says that Moses told God that if he went against Moses' people, that he would, go against you (God himself). Of course, since God only had meaning in his ultimate purpose in seeding the real God, the Jewish religious texts has God surrendering to his better and cancel the Jewish Holocaust.

Occasionally we hear about a few obscure Jewish synagogues that actually quibble with on some policies of the Zionist State. In reality, once again, those few synagogues are but microscopic toothpicks floating next to the Jewish Battleship commanded by the billionaire, elite Jews of organized and Judaism itself.

And not one of them dares to admit the supremacist, misanthropic teachings of Torah and Talmudic Judaism. No synagogues on earth oppose the Jewish networking and supremacism that empowers the core of Zionism.

They all teach that Jews are eternal victims, and that Jews must network and support each other, that Jews must support Jewish interests and their fellow Jews in every endeavor, and they know that such tactics of Jewish unity will lead to domination of any divided entity over time. So the foster the politics and culture of division.

So if anyone, Jew or Gentile, is truly anti-Zionist, he must oppose Jewish Supremacism, Jewish tribalism, as well as the Jewish supremacy over the politics, media and finance of America and the Western World.

Anyone, Jew or Gentile, who does not oppose the Jewish tribalist domination, in effect supports the evils and crimes of the Zionist State. The crimes of Jewish tribalism go far beyond the evils of Israel. They fuel the Ziowars that have cast the world into terrorism, torture and hate. The Jewish supremacist moguls of media support every kind of violence, moral degeneracy, drug and alcohol culture, pornographic degeneration and the dissolution of the highest human values of the now passé Christian culture. Jewish culture and Jewish values are now the new values.

They have through their tribalist financial combines stolen trillions from the American people, the European peoples and the whole world. They have, through their media,

covered up it all up. They have killed a 100 million and enslaved, oppressed, harmed and tortured a billion more with their Communism. They have killed a hundred million more with the last hundred years of practically inhuman wars that embraced a new height of human evil, the making of civilian men, women and children mass targets of murder and horror.

Anyone who tries to cover up and deny Jewish tribalist supremacism is either an idiot, or is a collaborate traitor. Everyone who bows to this evil, has to be seen clearly as an agent of Zionism and the ZioGlobalist crimes against humanity.

Jewish extremism, Jewish Privilege and Jewish supremacism existed long before Zionism, and Zionism itself cannot triumph without the Jewish matrix of power in media, finance and politics. To suggest that the problem of Zionism is simply the Zionist crimes related to Israel and the horrific wars Israel and its client states have waged.

Zionism is fundamentally about Israel.

It is Jewish supremacism and the resulting Jewish supremacy over broadcast television, print media, the Internet and social media, politics and finance.

It is about Jewish supremacy over so much power, that hardly there is one literate and connected person on earth whose mind is not at least in some small part affected by it.

It is as Henry Ford proclaimed long ago, the world's foremost problem.

Unless we depose this tyranny it will be the end of freedom and the end of us and of all humanity.

Sincerely,

**Dr. David Duke**
